DRICHIRU FAITH

FRONTEND DEVELOPER INTERN | TECHNOLOGY & BUSINESS

Uganda | faithdrichiru@gmail.com | 0760718162

Portfolio

PROFESSIONAL PROFILE

Technology and business professional with a background in Information Technology and software development, currently pursuing a BBA in AI & Finance at Nexford University. Experience includes working on web and software projects using JavaScript, React, Python, Django, and APIs, with additional exposure to data engineering, artificial intelligence, and product development.

Combines technical problem-solving with a business and innovation perspective, with an interest in building practical, user-focused digital solutions. Seeking a Frontend Developer Intern opportunity to contribute to real projects while growing within web development and the WordPress ecosystem.

TECHNICAL SKILLS

- Frontend and web: HTML, CSS, JavaScript, TypeScript, React, React Native
- Backend and APIs: Python, Django, FastAPI, Node.js, APIs
- Tools and data: Git, GitHub, PostgreSQL, data analytics, data engineering
- Additional areas: Product development, customer development

PROJECT EXPERIENCE

Tuwaye AI | Team Member | Inclusive Speech Technology Startup

- Contribute as a team member to an inclusive speech-technology initiative designed to help people with speech and communication difficulties.
- Work around a solution concept incorporating speech recognition and analysis, multilingual support, personalised exercises, and remote caregiver monitoring.
- The project progressed into MIIC Startup Hatch 1.0; participated in bootcamp activities covering product development, customer development, market development, and validation.

KAMPULSE – Urban Life in Kampala | Open Data Ensemble / Formulus Community Days

- Contributed to a community-focused application about urban life and information in Kampala.
- Worked with React and Node.js and used GitHub branches and pull requests as part of the collaborative development workflow.

Karibu Harvest Manager | Django Project

- Built a Django-based agricultural management dashboard, applying software development to agricultural operations and information management.

Grocery POS System | Refactory Academy

- Built a point-of-sale system supporting inventory, transactions, and receipts as part of software engineering training.

SheBank | Hackathon Project

- Worked on a platform concept that enables SACCOs to register and save funds securely with official banking institutions, applying technology to a financial inclusion use case.

Electronic NID Registration System | UICT

- Built an Electronic NID Registration System as part of IT studies at Uganda Institute of Information and Communication Technology.

PROFESSIONAL EXPERIENCE

Administrative Assistant | SCECK Consult | 2024

- Support daily administrative and office operations through email and calendar management, scheduling, data entry, research, and documentation.
- Use Microsoft Office and Google Workspace to organize information and support team workflows.

Talent | Groundbreaker Talents

- Participate in professional development across AI, software engineering, data engineering, entrepreneurship, and leadership.
- Recognized as Talent of the Month for August 2026.

EDUCATION

BBA in AI & Finance | Nexford University | Ongoing

- Focus areas include business, finance, artificial intelligence, and data-informed decision-making.

Associate of Applied Science in Business | Nexford University

- Coursework completed on the BBA pathway.

Diploma in Information Technology for Science | Uganda Institute of Information and Communication Technology (UICT)

- IT foundation including software development and the Electronic NID Registration System project.

St Kizito SS Bugolobi | O-Level and A-Level

- Studied ICT.

CERTIFICATES & PROGRAMS

- Software Engineering with Python — Refactory Academy
- Data Engineering and Analytics — Refactory Academy
- Virtual Assistance — Maarifasasa

LEADERSHIP & COMMUNITY

- General Secretary, Electoral Commission — UICT
- General Secretary, UNAU Chapter — UICT
- General Secretary, IEEE — UICT
- Class Representative; member, Technology Innovation Students Association — UICT
- General Secretary, Students' Body — St Kizito SS Bugolobi
- Host, NASA Space Apps Challenge Uganda
- Participant, GirlCode Hackathon, SheCode, and Open Data Ensemble Community Days
